

**A designer who codes!** Creative professional with 5+ years of experience bridging the gap between marketing and technology as a web designer and frontend developer, specializing in user-focused responsive web design, HTML, CSS, and jQuery.

## Experience

### FRONTEND DEVELOPER, COMSOL, BURLINGTON, MA

2015-PRESENT

- ▶ Designed and built new COMSOL events calendar and event landing pages with an eye towards better usability and discoverability of highly specific and very technical training events for users of COMSOL software.
- ▶ Designed and built new discussion forum, a part of COMSOL's user support offerings.
- ▶ Improved product download flow, eliminating confusion between the COMSOL desktop software, and COMSOL Client.
- ▶ Conducted user research (via card sorting, surveys, and brainstorming meetings) to determine structure of a new navigation system for a large, complex company intranet.
- ▶ Built landing pages for COMSOL Days events, which have been some of our most successful events to date.
- ▶ Additional responsibilities include general website maintenance, mentoring of jr. staff, support for in-house built content management tools, and HTML email creation.

### WEB DESIGNER, LYCOS INC, WALTHAM, MA

2012-2015

- ▶ Designed and built new templates for Tripod.com
- ▶ Refactored CSS for Tripod.com, greatly reducing complexity and file size, and improving ease-of-use for myself and other designers making updates going forward.
