Experience

2015—NOW FRONTEND DEVELOPER & WEB DESIGNER

COMSOL INC., BURLINGTON, MA

- ▶ UI/UX design and frontend (HTML, CSS, jQuery, GIT, Bootstrap - all within a mixed PHP and Angular backend environment) development for comsol.com and company intranet. Planning, research, information architecture, wireframing, UI design, and frontend development for projects large (comsol.com/events) and small (comsol.com/comsol-days).
- ▶ User support for in-house built content management systems
- ▶ Collaboration with colleagues in sales, marketing, event planning, content writing, and graphic design for purposes of redesigns and improvements to the website
- ▶ Mentoring jr. frontend developers/designers
- ▶ Ticket triage (JIRA), bug fixes, and improvements

2012—2015 **WEB DESIGNER**

LYCOS, WALTHAM, MA

- ▶ Web design and frontend development for Lycos properties, primarily Tripod.com, Angelfire.com, and lycos.com — including a visual facelift of tripod.com, creation of site templates for Tripods drag-and-drop site-builder, visual facelift and navigation system for internal customer service tools, and frontend development of new design for the home page of lycos.com

2008—2012 **FREELANCE WEB DESIGNER**

SELF/MARGINALIA STUDIOS, RAYMOND, NH

- ▶ Design and develop websites for local small business, artists, and educators on a solo, freelance basis. Utilized Wordpress for content management where appropriate.

Education

2005—2009 **BA IN GRAPHIC DESIGN**

CHESTER COLLEGE OF NEW ENGLAND, CHESTER, NH

- ▶ Major coursework focused on graphic design fundamentals, identity design, and web design.
- ▶ Additional coursework included illustration, photography, painting, history, and sociology.
- ▶ Completed a 3-week study abroad course in literature and mixed-media at the Burren College of Art in Ballyvaughn, Co. Clare, Ireland.
